

The SPAWAR Enterprise

The SPAWAR Enterprise is United to Deliver FORCEnet

The SPAWAR Enterprise, consisting of diverse Program Executive Offices (PEOs), directorates and field activities, is geographically organized and uniquely composed to deliver transformational capabilities:

- SPAWAR Headquarters (San Diego)
- PEO C4I and Space (San Diego)
- PEO Space Systems (Chantilly, Va.)
- PEO Information Technology (Arlington, Va.)
- Direct Reporting Program Manager, Navy Marine Corps Intranet (Arlington, Va.)
- SPAWAR's Systems Centers are located in New Orleans, San Diego, Charleston, S.C., and Norfolk, Va. The SPAWAR Space Field Activity is located in Chantilly, Va., and the Washington Liaison Office is located in the nation's capital.

SPAWAR Enterprise Mission:

Deliver FORCEnet – Transforming Information Into Decisive Effects.

SPAWAR Enterprise Vision:

FORCEnet is the Decisive Weapon for the Future Force.

SPAWAR Enterprise Commitment:

Dedicated to the joint warfighters who stand in harm's way, preserving peace and defending the nation and its allies against aggression at home and abroad. The SPAWAR Enterprise understands its mission and will do everything possible to ensure the warfighter's success.

The central triad with responsibility for FORCEnet is the Naval Network Warfare Command (NETWARCOM), Naval Operations (OPNAV) and the SPAWAR Enterprise. NETWARCOM is the operational and requirements lead for FORCEnet. In conjunction with the Assistant Chief

of Naval Operations for Information Technology, these commands covering warfighter and business information technology domains are the key connection points to the "customers" – joint warfighters – while OPNAV is the FORCEnet resource provider. The SPAWAR Enterprise is the acquisition "provider" point of the FORCEnet triad.

The SPAWAR Enterprise has taken the lead in providing measured progress and FORCEnet metrics. A top-level metric is being defined from which FORCEnet capability metrics can then be developed. It will address both the compliance of developing systems to FORCEnet standards and the fielding of those systems to the Fleet. Through modeling, simulation and at-sea demonstration, the SPAWAR Enterprise will develop additional metrics that measure the value provided by FORCEnet to the other Sea Power 21 elements – Sea Basing, Sea Shield, Sea Strike, Sea Trial and Sea Enterprise.

The SPAWAR Enterprise is composed of 7,600 diversely talented, dedicated and hardworking professionals focused on providing the highest quality of service and products to meet the national interest.
